 - Environmental NGOs (Eco-Forum via WECF)
- Industry
- Trade Unions
- Youth

Budapest 2004 The future of our children"

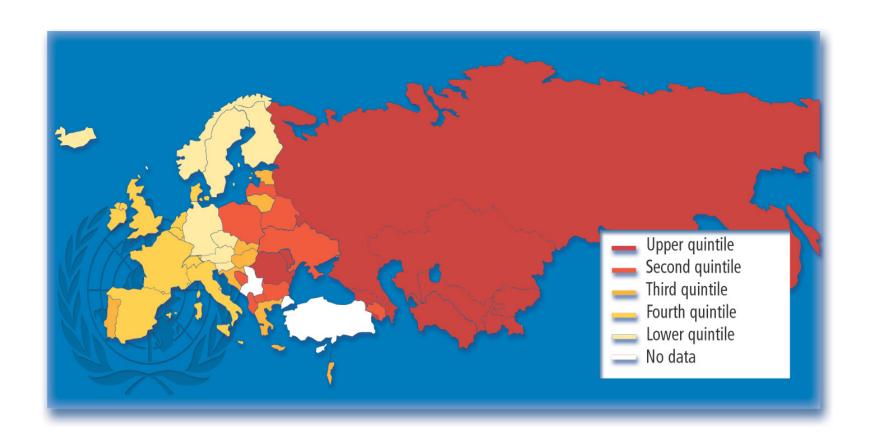

Why children?

- Over 40% of the global burden of disease attributed to environmental risk factors falls on children under five years of age
- Children are more exposed than adults to many environmental factors

Probability of Dying Before Age 5

Source: WHO Regional Office for Europe

Two main outcomes

- 1. Ministerial Declaration
- 2. CEHAPE Children's Environmental Action Plan Europe
 - annexed Table of Actions
 - Member states committed to have child specific action plans by 2007
- NGO and Youth declaration

We are mid-way to the next ministerial conference Rome 2009

Focus CEHAPE: Regional Priority Goals - RPGs

Environmental Risks and Related Diseases

- RPG 1: Reducing gastrointestinal disorders with safer water and adequate sanitation
