

WSSP results in Macedonian schools

Filip Spirovski
Project coordinator
Journalists for Human Rights

13 December 2016
WSSP conference in Timisoara, Romania

Supported by:

Federal Ministry for the
Environment, Nature Conservation,
Building and Nuclear Safety

based on a decision of the German Bundestag

Target

- ▶ In this project our target despite the 60 stakeholders (water operators and doctors and representatives of local communities) was pupils from 2 primary schools near Skopje.
- ▶ We worked with 120 pupils and 20 teachers
- ▶ by participating in summer camps, workshops, debates, lectures

How we select the two schools?

- ▶ In selecting the schools with which we cooperate we watched to choose two schools with different levels of access to water and sanitation...
- ▶ To be in rural area
- ▶ To be interested in cooperation on this issues
- ▶ To have multiethnic and different understandings regarding access to sanitation and managing menstrual hygiene

We choose...

Primary school Diutria is
village of Saraj

Regional school
in village Color municipality
Studenicani

Why we select this two schools?

- ▶ Both school are in rural area...
- ▶ Saraj in village of Saraj, on 10 km from Skopje
- ▶ Cvetovo in the village of Cvetovo, in the area of the municipality Studenicani
- ▶ In schools children from different ethnic backgrounds: Macedonians, Albanians, Turks, Roma ... predominantly Muslim population

Why we select this 2 schools?

Diutria primary school was renovated and WASH was on high level

Primary school in Cvetovo despite that was renovated the WASH was on very low level

Activities

- ▶ 120 pupils from 2 primary schools receive the new knowledge about water and sanitation

Activities

4 summer camps was realized in the frame of summer activities during the summer holiday

Menstrual Hygiene management caused the greatest attention among students

- ▶ 8 workshops on different topic was organized in the period of September - November 2016

Activities...

- The pupils visit Rasche village where is the source water supply for Skopje

What they learn?

- About MHM
- About personal hygiene
- How to protect water
- How to clean and maintain sanitation
- To test the water safety

Results:

- ▶ 120 pupils from 2 primary schools receive the new knowledge about water and sanitation
- ▶ 4 summer camps was realized in the frame of summer activities during the summer holiday
- ▶ 8 workshops on different topic was organized in the period of September - November 2016
- ▶ The pupils visit the WSSP in Rashtak and learn how to protect our water source...

Follow up

- ▶ To continue educating students
- ▶ To work on educating teachers
- ▶ To lobby compendium become part of the regular curriculum in primary school (for now it is used as additional classes in 5 primary schools in the municipality of Aerodrom)
- ▶ To start and adapt the compendium for children in kinder garden

The background features abstract, overlapping green geometric shapes, primarily triangles and polygons, in various shades of green, creating a modern and dynamic look.
