Parma Declaration*

A. Protecting children's health

Regional Priority Goal 1 **Ensuring public health by improving access to safe water and sanitation**

- i. We will take advantage of the approach and provisions of the Protocol on Water and Health³ as a rationale and progressive tool to develop integrated policies on water resource management and health, addressing the challenges to safe water services posed by climate change, with clear targets and objectives, working in partnership with all concerned sectors.
- ii. We will strive to provide each child with access to safe water and sanitation in homes, child care centres, kindergartens, schools, health care institutions and public recreational water settings by 2020, and to revitalize hygiene practices.
